Good morning, Kelly and Thomas.

Thank you both for jumping on an early call this morning to discuss the upcoming Project Coconut Filter Review workflow along with other items! Below is a high-level summary of items discussed during the call; please let me know if any of the below items need to be updated.

a. Workflow

- i. Warrant Production documents will be bifurcated into the below two (2) tranches for the Filter Team's review;
 - 1. Documents hitting on Keywords ("Keyword documents")
 - a. Keyword documents will be First Level Reviewed ("1LR") by the Filter Team and Second Level Reviewed ("2LR") by Kelly Z.
 - 2. Documents not hitting on Keywords ("Non Keyword documents")
 - a. Non Keyword documents will be QC'd by Kelly Z.
- ii. Transfer to Substantive Team
 - 1. Upon confirmation from the Filter Team, *Relevant* and *Not Privileged* (or *Privileged Redacted*) documents will be sent to the Substantive Review Team.
 - 2. Documents with a high presumption of privilege that the Filter Team determines should be reviewed by the Substantive Team will be sent to the Court for review and approval before transferring to the Substantive Team.
- iii. **ACTION ITEMS:**

 - 2. Deloitte will review attached email containing the draft Filter Review Protocol and Government's proposed fields/choices to send updated Filter Review coding layout to Government for review.
 - 3. Deloitte will send Kelly recommendations for her Filter 2LR.
 - 4. Deloitte will create a Filter Review tracker in Project Coconut's workspace for the Filter Review documents.

Please let us know if you have any questions or would like any additional information.

I hope you all have a fabulous (much deserved) long weekend!!

Warmest regards,

- The filter protocol affords the PH 7 days to object, or we release the info.
- Rolling production.
- We do not produce anything tagged privileged or unambiguously non-responsive.

Procedures

- Using Relativity, for attorney targets, everything is presumed privileged. Known attorney names are highlighted in purple.

Norm,

I hope you are doing well and that you are having a wonderful holiday. Andrew and I have been working on the logistics of expanding the filter team that reviews materials related to the Special Counsel's Office, and wanted to check in with you on a couple questions related to SAUSAs.

Our first question is this—when we discussed the filter team in principle with Jolene, and the fact that these short-term “details” would be non-reimbursable—Jolene thought that we could efficiently accomplish the paperwork necessary with a memo like the attached, simply documenting under Marshall's signature the terms and the list of folks detailed. This has the benefit of cutting down on paperwork, especially for this brief surge-type effort that we need to get stood up by Jan. 3. Would this work for the USAOs providing AUSAs?

Our other question relates to the issue of litigation of any filter issues in D.C. I talked to Bridget Fitzpatrick on Saturday, and she and Matt are fine with the filter team litigating any such issues in D.C. as they have been doing, as long as it is clear that the D.C. USAO is not involved the filter decisions (their concern being that if there are loose ends from the SCO venued in D.C. a few years down the road, they don't want to office to be tainted or recused). Is the attached memo sufficient to allow filter members to file pleadings in D.C., or does there need to be additional paperwork first? We also thought that we could get the filter team up and running through this memo, and then deal with any additional SAUSA paperwork as the need to file in D.C. arises on an attorney-by-attorney basis.

Thanks so much, and sorry to bother you on a holiday weekend!

All sounds good! Also, Kelly, I'm not sure where you get your logistical/admin support (assignments, batching, all of the Relativity behind-the-scenes work), but if it would be helpful for me to identify a paralegal detailee, let me know and I will look into it.

Molly/Kelly –

Based on our calls and the information you both provided, I put together a roster of the overall filter team, which is attached. Let me know if you see any issues with it.

Practically speaking, we are going to go from a large surge and solid core team down to 1.5 attorneys on April 3 (including Kelly). Based on Kelly's and my conversation this morning, we will need more support than that after April 3. Kelly and I will assess the need over the course of the month so that we can communicate with ODAG about needs well in advance of April 3. To that end, I am going to put a meeting on the calendar for the three of us in early February to make sure that a needs assessment and request does not run away from us. We can always re-schedule it closer to the time as our individuals schedules become more clear—but I feel like we should just get something on the calendar to make sure we don't have a crisis near April 3.

Molly, thank you so much for putting this together for us!

J.P.

Kelly and J.P.,

Attached is a draft memo regarding the filter team that we will finalize today. Kelly, this includes additions from the Massachusetts USAO; I think you should have all of the other names. It's possible that there will be one last addition today. Please let me know if you have any questions.

Office of the Deputy Attorney General

SUBJECT: Temporary Filter Team Assignment

This memorandum confirms that the attorneys listed in Attachment A will be performing a temporary assignment as a member of a filter team related to the work of Special Counsel Jack Smith. Below please find details regarding the assignment.

- Unless otherwise stated, the assigned attorneys are expected to serve as members of the filter team on a full-time basis for 90 days, from January 3, 2023 until April 3, 2023.
- The filter team will operate under the supervision of Kelly Zusman, First Assistant U.S. Attorney (FAUSA) in the District of Oregon. Team members will receive work assignments from FAUSA Zusman or her designees, and FAUSA Zusman will oversee training and advise team members of any applicable ethics, confidentiality, and recordkeeping requirements.
- Throughout the assignment, the filter team members will remain employees of their home component or office, which should continue to maintain records related to their attorneys, including official time, attendance, and leave records; formal performance evaluations; and other personnel matters. The home component or office should coordinate with FAUSA Zusman regarding approvals of leave during the assignment period.
- The assignment is not eligible for reimbursement from the Special Counsel's Office or any other office of the Department of Justice. Filter team members will perform their work from their current duty stations, using the office space, materials, email addresses, phones, and computers currently provided by their home component or office. No travel is expected for this assignment. All filter team members from United States Attorneys' Offices should record their time in the USA-5 system as "national security/domestic terrorism."
- Filter team members will litigate any legal disputes related to their work in the District Court for the District of Columbia, under the supervision of FAUSA Zusman. Team members will not be required to make in-person court appearances in the District Court;

however, team members may be asked to file motions and related court papers and appear remotely for court appearances. For purposes of such litigation, team members will be appointed as Special Assistant United States Attorneys for the United States Attorney's Office for the District of Columbia, working under FAUSA Zusman's supervision. Such appointments—and the further documentation necessary to effectuate them—will be made on as-needed, attorney-by-attorney basis. The United States Attorney for the District of Columbia and his regular Assistant United States Attorneys will not review the filter team's determinations or the underlying documents over which they are made.

Hello Thomas,

Sure thing, I should be able to get this pulled together by Tuesday as the latest. In the meantime, I'll get the accounts for Kathleen Campbell, Brittany Reed, and Teresa McHenry deactivated.

Thank you,

Hi TaMira -- when you get a chance (next week maybe?), can you please send an updated version of the below? There are some folks I suspect I'll need you to deactivate. For example, Kathleen Campbell, Brittany Reed, and Teresa McHenry no longer need access. Thanks!

Good afternoon Thomas,

Below please find an updated user account list. Please note that blank account status means they have not logged in within the last 4 months and account is either disabled or deleted. A value of "Null" in last login, means that they have not logged into a workspace yet (or system did not capture a login).

Please review and let me know if any of these individuals should no longer have access.

Thanks Thomas. All the folks on the CR15 side are good. We will need to add names once we get the additional three analysts but we will get those to you as soon as we have them.

Happy New Year to all of you!

Good morning Thomas,

Below please find updated list of all users that either have enabled accounts or we are awaiting their feedback to create their initial account. Please note if the account status has "-", that means that the account may have already been deleted (or never created if a creation date is missing). Finally, "NULL" means that there account is enabled, but the user had not yet logged in prior to when we pulled the report.

Please review and let me know if any of these individuals should no longer have access.

ii. Non-message Data: currently in processing and should be loaded by EOD today.

b. There are 2 more phones that Deloitte will be receiving from FBI. Maria will follow-up with transfer information, but doesn't believe this data needs to be filtered or scoped. Processed in Axiom. Deloitte can't turn those around as quickly as Cellebrite.

i. Process & Timeline: DOJ would like to start to produce a few exports a day to Josh so he can start importing into Everlaw.

[REDACTED] and Deloitte Team –

As we have discussed, we now need to address the permission settings on the search warrant returns on the CDI side. Please adjust the settings so that NO ONE on the substantive team (from SCO or FBI) has access to anything for any search warrant return (other than Chamberlain Harris, which still needs to be scoped) that has not been tagged Relevant and exported to us for production.

So substantive team/SCO/FBI only have access to (1) documents marked relevant and exported out; and (2) the Chamberlain Harris email that recently cleared filter. Nothing else from the search warrant returns.

This is the top priority item right now from our end.

Please confirm to this group when this is complete.

Please let us know if you have questions.

Subject: RE: Witness menu project

Team –

We are about to embark on the Witness Menu project. In our meeting the other day, we suggested that the deadline for entries in the menu spreadsheet would be Wednesday. The deadline is instead going to be Monday, September 11.

So what is the project? It is as follows: attached is an Excel spreadsheet of the vast majority of our witnesses broken up among general categories. Each of you has been assigned certain witnesses. If a witness is assigned to more than one attorney, we would like you to divide the work as you see fit, but feel free to consult with us if you would like help with the division of labor. If you think we have made a glaring error in assigning a witness to you, please let us know. If you think a witness shouldn't be on this list at all, please also let us know that.

The general team breakout is:

- Electors: MLD/MKV/EBP
- State/Federal Election Officials: TAD/GDB
- Other State/Federal Officials: TAD/GDB
- January 6 and Since: JGK/AGW (with assistance from EBP/MLD)
- Campaign/Lawsuits: MBB (with assistance from TAD/MKV/GDB/EBP)
- White House/Miscellaneous: TPW/MGG (with assistance from EBP/GDB/MBB/MKV/MLD/TAD)

Tomorrow, Jack will meet with each team and discuss overall objectives. I'll forward calendar invites shortly. You can expect regular feedback meetings. In general, for each witness, we would like a thorough recitation, in bullet point form, of the following:

- A one-sentence description of who the witness is and why he/she is relevant to the case.

- For our case-in-chief, the points for which we may want to call the witness to testify. If the witness is cited/responsible for information in the indictment, please indicate so and cite the paragraph(s) of the indictment.
- The specific exhibits that we could introduce through the witness.
- The points on which the defense might cross-examine the witness.
- Notes on other witness/evidentiary issues (e.g., absence of a hearsay exception for a piece of desired testimony, an immunity or privilege issue, potential Rule 404b evidence, etc.).

A preliminary example for witness Mark Milley is included in the spreadsheet, but the final spreadsheet will probably be more detailed than this. Please note that for some witnesses, we have pre-filled some information generated by GDB, with help from MBB and TAD. This is meant to assist you and make full use of the excellent work that they already did, but it does not mean that you do not need to conduct a thorough review of the witness's records and decide whether there are additional points to be made or points to be subtracted or moved to a different column.

We understand that this will take some time. For instance, to generate the information above, we know that you will need to review any interview reports/transcripts, grand jury transcripts and exhibits, Select Committee transcripts, etc. Our hope is that doing a thorough job for this step will narrow the number of witnesses for whom we do even more work (outlines, etc.) in the next step. Please feel free to share any questions or concerns, and keep us posted on how things are going and if it appears for any reason that the Sept. 11 deadline is unworkable.

We are incredibly grateful for all of your incredible work.

Team, just a quick note to let you know that TPW and I will not be sending around these assignments until later in the weekend, and the due date will NOT be Wednesday—it'll be later. Instead, we're going to get you the assignments and directions in the next day or two, but then Jack would like to sit down with folks on Tuesday and make sure we're all on the same page before we really roll up our sleeves. Hopefully that means that everybody gets a little bit of rest this holiday weekend. Thank you for everything!

J.P.—As requested, here is a spreadsheet that includes the Filter Team roster. I note that [REDACTED] was the only non-attorney member of the team. She is a supervisory paralegal [REDACTED]. Logistically, she handled all our court filings. As you would expect, those from USAO are AUSAs and those from DOJ components are Trial Attorneys.

Please let me know if you need any additional information.

Thanks.
