

Dear Senator Johnson

07/22/2026

I am a Nurse, and Army of 35 years.

Mom was pressured by her doctor to take a shot against my Protest (her diagnosed modalities), at KAISER Permanente/ CA.

Mom had TB as a Child, with decades of pneumonia and bronchitis. “Only one half of one lung doesn’t look like Swiss Cheeze” (jdj) “I have scar tissue throughout my lungs, so air can’t easily get in.” (jdj)

Mom was diagnosed with idiopathic Pulmonary fibrosis years before By Kaiser.

Two reactions following the “Shot,” Mom said, “both times I had Shortness of Breath, and I was having seizures!”

“The doctor was pressuring me to take a Second shot.” Mom refused. “I argued with him, as he was yelling at me “Why not?”

(Mom’s response) **“I told him that I Liked to Breathe!!” (jdj)**
Mom told me: “ I am dizzy all the time, w/ Brain fog while I am trying to finish our book.”(jdj)

I saw her the first week of August 2021; to fix her security system. Three weeks later, they “took (her) to the hospital, discharged me with a O2 tank.” Then taken back again. They

“have no room” with moms’ newest pneumonia; they put Mom “on a Covid ward”. I drove 8 hours to see her. I was on her Med alert list; paying for her 2 Med Alert pendants.

To see Mom, Kaiser pressured me to take a “Free” PCR Test first. “You Can see your mom if its negative” It was Negative! Suddenly they insisted on a “Free Shot,” and “come back in 78 Hours for the second one, **and then** you can see mom. “**(I refused), so they denied me to visit her, even gowned and masked up.** The Nurse said mom was a “frequent flyer”) Mom had survived 4 heart attacks, and Breast cancer twice. She’d used Kaiser on a weekly basis for months, because of her modalities. Mom informed me they had manipulated and pressured her, in front of family, to do a DNR; which Mom later recanted. Dr B. said “Still, we will only give your mom Comfort Measures” when we spoke on the phone. Mom said “It’s raining in my room” Dr B, stated we are “following Gov. Newsom’s Directives and Hospital protocols.”

Dr B refused my request, for Kaiser to do the “Viti C by IV or Ivermectin or other meds used around the world” working protocols. She slammed the phone down. Mom texted us the **evening of Sept 3** that she loved us. Then, **on Face time, spoke to her directly.** She had nasal O2; was coherent, alert and oriented X3. Two siblings gowned /masked near her bed.

My sister, holding the phone. Mom looked at me and we talked.

We received an am Phone call **4 Sept**, she suddenly “ died” It appears, Family, had gone home, late on the **evening of 3 September**; Kaiser, kept increasing the doses of Oxycodone and **MORPHINE**. **Between 7 am to 730, she stopped Breathing.**

My Training taught me, that increasing Morphine too much, decreases your breathing capability,” “We are only going to offer her “Comfort measures.” (Dr B). Mom had presented with “Copious amounts of Blood Clots, further compromising her respiratory ability and lack of lung capacity. (see death certificate)

My family, and friends had been threatened and/or bribed to get shots by employers and medical Providers. The Army tried to bring me OUT of MRD Retirement. I was SIXTY-FIVE Years old. They wanted me a nurse, to give Shots. I refused their bonus offers.

MSG Donice NOELLE JANSEN SMITH (Ret)
