

Dear Senator Johnson: 6-8-26 Patient: RoseLynn Lugowski, 60 years old. Had Asthma. Unvaxxed. DAY1-Sunday, Nov 28, 2021: Admitted to Northfield Hospital MN @ 4:10pm with hypoxia and 9 days into Covid. She was placed on BIPAP. At 5:55, they completed the 1st of a series of 5 doses of REMDESIVIR, DEXAMETHADONE, and BERACITINIB; the covid PROTOCOL. They also gave her Albuterol and Pulmacort for her asthma. Day2-Nov 29: 2nd dose of REMDESIVIR, DEXAMETHADONE, and BERACITINIB. Obesity BMI; 30-34.9 Awake and alert. Day3-Nov 30: Plan: Continue REMDESIVIR, DEXAMETHADONE, AND BERACITINIB. Oxygen support was already maximized, she remained full code, and desired transfer to tertiary care. Her progress was tenuous. She was discharged from Northfield Hospital to Austin Mayo VIA HELICOPTER at 8:03 pm. Discharge Diagnosis: Acute Respiratory Failure with Hypoxia Covid 19 Pneumonia. Morbid Obesity 30-34.9 D4&5-Dec 1st and 2nd: Continued on CPAP, had a markedly elevated and rising D-dimer. Day6-Dec 3rd. Went totally downhill. Could no longer tolerate CPAP. Exam showed Crepitus in the neck. Acute PE in the segmental and subsegmental branches of the RLL and a host of other maladies that required her to be intubated with deep sedation and paralyzation with atracurium infusion(it is all detailed the nurses' review of the records I have on hand). At this time, she was transferred to Rochester Mayo, where she layed in a vegetative state, on a ventilator, with 5 Specialist Doctors who monitored the destruction of her organs(Heart, Lungs, Kidneys, and Liver) until Dec. 16th, when my family agreed to let her go. Records and Nurses' Review are available upon request. I am available to testify if necessary. I also went into the ER with Lynn that day with Covid. After a check and a chest x-ray, they told me I could go home. No meds or instructions for me. The next day, someone told me about LX Medical in my area. A Nurse came to my house and administered a bag of vitamins and a bag of monoclonal antibodies. The next day I was feeling much better, and the day after that, I was pretty much my old self. I really appreciate you looking into this. My beautiful Wife did not deserve this. Thank You Very Much, Jim Lugowski
